YS office

For the commercial registry entry in Switzerland we still need a few signatures from several board members. The whole process should be completed these days and we pray that everything will be finished soon.

Italy - Asei

From 2nd - 9th August a training course with 11 participants took place in Brugnato Laspeziat. Before the event the leaders experienced several problems and were discouraged because of stress and overwork. But God made it possible that we were able to carry out the training week and He gave us a double blessing: of course on one side the participants were blessed but on the other side the leaders got new courage and motivation to go on - pti!

We rejoice

Austria - Aböj

- Thankful for the blessed camps in July and August.
- From 22th – 28th July Ruedi Hächler was able to visit three camps and also the one in Hungary.
- Since 1st July Sabine Hächler is working for the Aböj part time (20%). She will work on the whole teaching and training concept - a general revision is needed. The goal is to have a continuous system in all five training courses until 2016. Also all the manuals for the teachers and participants should be based on this.

Ukraine - Camp Lela

We had 8 camps this summer with around 800 children! What a blessing (more details in our next PrayerMail)! At the moment we are putting everything away so we would appreciate your prayers for that.
