Executive team and supervisory board

The meeting of the e-team and the board in Rome was really, really blessed. We not only met as a whole group but also had several meetings in smaller working groups. We had three very intense days - we really worked hard! But it was of course a real delight to meet „face-to-face“ for once, to share and have time for fellowship, to pray and study God's word together. Thank you so much, that you included us in your prayers!

Spain - YS España

- Thankful for our great team of three people who are working together at the YS-office. Together we can set many things in motion.
- Thankful for the new office location where we started working this month.
- Thankful that we as YS association have the much needed registry number since last week. This number helps us in many ways.
- Pray for the financial situation of Raquel and Dan. They are building up a personal circle of supporters.
- Pray for wisdom to set priorities right.
