

## **Bulgaria**

In the YS of Gorna Oryahovtsa we are now around 30 people regularly, participants and leaders. Especially with the teenagers we have always very good interactions and discussions.

But it is very hard for the teenagers to connect with the churchs, espacially in small churches. Therefore they don't attend the service anymore. In Hisar we want to mention Sami and Vesi. Of course we also miss them as YS leaders in our group. Please pray for their dedication and commitment, so they will have the right motivation for their work with us.

Lately Mishi is working for our national YS movement a day of the week. We are very thankful for his help.

## **Juropa**

- God's guidance for Anja's future
- preparations for the staff weekend; Ruedi Hächler is going to speak on Saturday evening and will share form Youngstars International
- wisdom in putting together the Budget for 2016

*Thank you so much for standing  
so faithfully in prayer for us.  
We wish you a very blessed New Year!*

## **Romania**

Thankful for:

- A very blessed weekend with the board of Micii Exploratori in the middle of November. The board set up an 3-5-year action plan for Cosmin. We are very thankful that he can see his calling for Micii Exploratori on a long-term base. This means we will invest in him the coming two years so that he can hopefully become the official National Coordinator of Romania in 2018.

Pray for:

- An additional co-worker for the office of Micii Exploratori.
- At the moment the legal headquarter of ME is the house of the Horst's. This needs to change in future and it would be best that this were our office in Sibiu. Unfortunately this includes a lot of unexpected paper work, since the office is declared as apartment at the moment. Currently the request for change of use is in process. Please pray that it will be done faster than

## **Moldova**

- Adi Pop, the YS main leader of the club in the village Cainari, married Tatiana, who was the team leader in our YS group in Orhei. They decided to live in Orhei and want to start a new club in a village called Viprova which is not far from Orhei. There is no evangelical church, just one Christian family. Pray for club in Cainari that the Lord will help us to find a leader who can continue the work. Also pray for the new club which will start in Viprova.
- Thanks for the four clubs in the region of Telenești. Someone offered to help financially. This provides the support for transportation and materials for the program.
- We praise the Lord that all the teams of these four clubs have become more united.
- A need for prayer: Maria, the leader of the club in Brânzenii, has been suffering from headaches for more than a year. May the Lord touch her and heal her.

## **Ukraine**

- We are still working on finding funding to repair the building that we want to use as an after school centre in the neighbourhood of Luzanovka. This could then serve as a meeting place for our Youngstars clubs, serve the local church plant and in many other ways.
- We are also in the process of developing the camp grounds that we recently acquired. Thirdly we are working on finalising programs for winter camps. We plan camps in four orphanages this year and one day camp in Luzanovka for our youngstars club - hoping that the camp will generate more interest and also help us make more contact with parents.
- Thank you to the movement of Youngstars International for helping us to be able to support one another in prayer in this way.
